

## *Message to Mom & Dad:*

Most Honda Mini-Trails will be operated by junior riders. In many instances, this is their initial introduction to the sport of motorcycling. Before your sons or daughters start to ride, it is important that you review the contents of this manual with them. A preliminary understanding of proper operation and maintenance will facilitate training and will contribute to their safety and the service life of the machine.

The Honda QA-50 is designed and equipped for off-the-road use only and should not be operated on public streets. A mini-bike is less visible to traffic than larger machines. If the rider must cross a street to reach his riding area, then for safety and to comply with laws in many states, he should shut off the engine and walk the mini-bike across. When training your son or daughter, select a safe practice area with an even surface, free of obstacles.
