

Automatic Brightness Control and Background Control

Ambient brightness is detected by the photosensor.

Do not damage or cover the photosensor. Otherwise, the automatic brightness control and background control may not work properly.

Caring for Your Vehicle

Frequent cleaning and polishing is important to ensure the life of your Honda. A clean vehicle makes it easier to spot potential problems.

In particular, seawater and salts used to prevent ice on roads promote the formation of corrosion. Always wash your vehicle thoroughly after riding on coastal or treated roads.

Washing

Allow the engine, muffler, brakes, and other high-temperature parts to cool before washing.

1. Rinse your vehicle thoroughly using a low pressure garden hose to remove loose dirt.
 2. If necessary, use a sponge or a soft towel with mild cleaner to remove road grime.
 - Clean the windscreen, headlight lens, panels, and other plastic components with extra care to avoid scratching them.
- Avoid directing water into the air cleaner, muffler, and electrical parts.
